

ALUMINUM/GALVANIZED STEPS

▲ First Step Attached Below Landing for Taller Threshold

▲ First Step Becomes Extension of Landing for Shorter Threshold

▲ Aluminum Walking Surface with Galvanized Steel Frame

▲ Landing & Step Unit Fit Together with Simple Sleeve System

EASY KNOCKDOWN III STEP UNIT MATERIAL OPTION

Ameri-Fab's "Easy Knockdown III" OSHA step unit really is A Step Above other construction-style step units. With aluminum walking surfaces and galvanized steel framing, legs and handrails, the aluminum/galvanized hybrid offers the best of both worlds: the lightweight properties of aluminum and the strength and durability of steel. This hybrid step unit features the same sound structural integrity synonymous with the Ameri-Fab name.

"EASY KNOCKDOWN III" STEP UNIT

The most innovative OSHA construction step available on the market today is Ameri-Fab's exclusive "Easy Knockdown III" step unit. This versatile design allows for a full 10" range in threshold height adjustability **in the same step unit.**

HYBRID STEP UNIT FEATURES

- 10" range in threshold height suitable for most site requirements
- Reduce inventory – no more mixing and matching landings and steps
- Significant weight reduction compared to all steel
- Easily assembled on site
- Virtually maintenance free – no paint!
- Delivery and installation available

AMERI-FAB EXCLUSIVES

- Easy Knockdown III Step Assembles in Minutes
- 10" Range in Threshold Height
- Relocatable

OPTIONS

- Quantity Pricing Available
- Nationwide Delivery and Setup Available
